

GLEN CANYON RISING

CROW CANYON
ARCHAEOLOGICAL CENTER

Climate change is significantly impacting Reservoir Powell, allowing Glen Canyon to rise again from the depths of impounded waters—a story of human history rises with it. Join us on an extraordinary journey in a landscape steeped in cultural traditions as we boat and hike through delicate formations seemingly frozen in time with perspective changing rapidly under modern influences. With storytellers and knowledge keepers as your guides, gain new insights on history and humanity—a unique opportunity to better understand Indigenous, archaeological, and conservation perspectives of a place that has its own story to tell.

FEATURING:

Lyle Balenquah

Hopi archaeologist, educator, advocate, and river guide extraordinaire. Lyle is a member of the Greasewood Clan from Bacavi Village on Third Mesa in northern Arizona.

Craig Childs

River guide, field instructor in natural history, adventurer, and writer. Craig is an award-winning author who has written extensively on Lake Powell and the Colorado River.
